#### **Curriculum Development**

The Board of Education recognizes the need and value of a systematic and on-going program of curriculum review. The Board encourages and supports the professional staff in its efforts to identify and review new curricular ideas, develop and improve existing programs and evaluate all instructional programs.

The Board of Education directs the Superintendent to continuously carry out the curriculum development and implementation process. As used in this Policy, curriculum is the process, attitudes, skills and knowledge that is taught and learned at the appropriate levels in District schools:

However, the Board of Education is responsible for the approval and adoption of curriculum used by the District.

Similarly, the Board may adopt the District's own education standards, in addition to those already adopted by the state, provided the additional standards are in the public domain and do not conflict with the standard adopted by the State Board of Education.

#### Curriculum Planning

The plan for curriculum development will address all requirements indicated by the Outstanding Schools Act of 1993 including the Show-Me-Standards: Section 160.514, RSMo and Code of State Regulations, 5 CSR 50-375.100. These standards include performance (process) standards and knowledge (content) standards. All curriculum developed by the District shall satisfy moving District students toward achieving Missouri's definition of what students should know and be able to do by the time they graduate from high school.

### Curriculum Research

The Board of Education directs that all curriculum developed and/or adopted by the District shall be based on current research relative to how students best learn. Resources to be consulted include, but are not limited to, local or area universities, State Department of Elementary and Secondary Education services, Association for Supervision of Curriculum Development and similar national, state and/or local curriculum organizations. Every effort should be made to insure that District curriculum is current and based on sound educational research findings.

##### **Human Sexuality Instruction**

Any course materials and instruction related to human sexuality and sexually transmitted diseases will be medically and factually accurate and will:

1. Provide instruction on human sexuality and HIV prevention that is age appropriate;
2. Present abstinence from sexual activity, as the preferred choice of behavior, in relation to all sexual activity for unmarried students.
3. Advise students that teenage sexual activity places them at a higher risk of dropping out of school;
4. Stress that sexually transmitted diseases are serious, possible health hazards of sexual activity;
5. Provide students with the latest medical information regarding exposure to human immunodeficiency virus, AIDS, human papilloma virus, hepatitis, and other sexually transmitted diseases;
6. Present students with the latest factually accurate information regarding the possible side effects and benefits of all forms of contraception;
7. Include discussions of the possible emotional and psychological consequences of preadolescent and adolescent sexual activity. Such discussions will include the consequences of adolescent pregnancy, the advantages of adoption, the adoption of special needs children, and the process involved in making an adoption plan;
8. Teach skills of conflict management, personal responsibility, and positive self-esteem. Instructions will include the prohibition against making unwanted sexual advances and methods to resist sexual advances and other negative peer pressures;
9. Advise students of the laws relating to their financial responsibility to children born out of wedlock and the criminal sanctions for statutory rape;
10. Not encourage or promote sexual activity;
11. Not distribute or aid in the distribution of legally obscene materials to minors on school property.

The District's human sexuality curriculum will be available for public examination prior to its use in actual instruction. Consideration will be given to separating students by gender for human sexuality instruction.

The District will not permit any individual or organization that provides abortion services, to offer, sponsor, or furnish course materials related to human sexuality or sexually transmitted diseases.

[Instructional Services](#)[Curriculum Services](#)

The Board of Education understands that parents/guardians, educators, students and other community members are seriously concerned about the adverse effects of drug abuse on the individual and society. Furthermore, the Board believes that effective drug education programs require both the acquisition of knowledge and the development of positive personal values. Both the school and other community agencies must share in the development and conduct of programs to alleviate the problems of drug abuse.

Therefore, the School District will abide by the following:

1. Be concerned with the education of all areas of drug and alcohol abuse.
2. Establish and maintain a realistic, meaningful drug and alcohol education program that will be incorporated in the total educational program.
3. Establish and maintain an ongoing in-service drug and alcohol education program for school personnel.
4. Cooperate with government and private agencies offering services related to drug and alcohol problems.
5. Encourage and support activities that will develop a positive peer influence in the area of drugs and alcohol.
6. Create a climate whereby students may seek and receive counseling about drugs and alcohol and related problems without fear of reprisal.
7. Follow federal mandates concerning drug and alcohol education.

### **Curriculum Services**

#### **Services for Students with Disabilities**

The District does not utilize a separate curriculum for students with disabilities. It is the policy of the District to implement a program of regular and special education based on the individualized needs of each disabled student. The District will provide special education and/or related services to students with disabilities in accordance with applicable law, including the IDEA, its implementing regulations, the Missouri State Plan for Part B of the IDEA, Section 504 of the Rehabilitation Act of 1973, its implementing regulations, and Title II of the Americans with Disabilities Act.

For students identified as disabled under the Individuals with Disabilities Act (IDEA), each student's IEP team will develop an Individualized Educational Plan (IEP) that will address how that student's disability affects that student's involvement and progress in the general curriculum. Each student's IEP team also will, in accordance with IDEA, create an IEP that includes a statement of the special education, related services and supplementary aides and services that will enable the student to be involved in and make progress in the general educational curriculum.

As provided in student's individualized education program (IEP), students will receive instruction in Braille or the use of Braille. However, the student's IEP team will determine, after an examination of a student's reading and writing skills, needs and appropriate reading and writing media, including an evaluation of the student's future needs for instruction, if the use of Braille is appropriate.

#### **Service Animals in Schools**

This policy governs the presence of service animals in the District's buildings, on school property (including school buses), and at school activities. The Board of Education adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from District programs, activities and services, and to ensure that the District does not discriminate on the basis of disability.

Students and/or adults with disabilities may be accompanied by a service animal as defined by federal and Missouri law on school property, in school buildings, and at school functions as permitted by law and subject to the conditions of this Policy.

#### **Service Animals**

Under federal law, a "service animal" means "any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability." Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition (See, however, provisions on miniature horses below). The work or tasks performed by a service animal must be directly related to the handler's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Under Missouri law, the term "service dog" is defined as a dog that is being or has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Service dogs include but are not limited to: guide dogs, hearing dogs, medical alert or response dogs, mobility dogs, and mental health service dogs or psychiatric service dogs. Under Missouri law, "mental health service dog" or "psychiatric service dog" is defined as: a dog individually trained for its owner who is diagnosed with a psychiatric disability, medical condition or developmental disability recognized in the most recently published Diagnostic and Statistical Manual of Mental Disorders (DSM) to perform tasks that mitigate or assist with difficulties directly related to the owner's psychiatric disability, medical condition, or developmental disability." An emotional support dog, whose purpose is to provide comfort or companionship does not meet the definition of a service dog under Missouri or federal law.

The District will permit the use of a miniature horse as a service animal if: (1) the miniature horse has been individually trained to do work or perform tasks for the benefit of an individual with a disability.

In determining whether to permit the use of a miniature horse as a service animal, the District will consider: (1) the type, size and weight of the miniature horse and whether the facility can

**ADOPTED**

accommodate these features; (2) whether the handler has sufficient control of the miniature horse; (3) whether the miniature horse is housebroken; and (4) whether the miniature horse's presence compromises legitimate safety requirements that are necessary for the safe operation of the facility. All additional requirements outlined in this Policy which apply to service animals, shall apply to miniature horses.

If an individual with a disability requests to use a service animal in a District building, on District property, in a District vehicle or at a District function, the District will not ask about the nature or extent of the person's disability. However, the District may make the following inquiries to determine whether an animal qualifies as a service animal: (1) whether the animal is required because of a disability; and (2) what work or task the animal has been trained to perform. The District may not make these inquiries when it is readily apparent that an animal is trained to work or perform tasks for an individual with a disability.

The District will not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal.

### **Misrepresentation of Service Dogs**

In accordance with Missouri law, a person knowingly misrepresenting a dog as a service dog for the purpose of receiving accommodations of the Americans with Disabilities Act will be guilty of a class C misdemeanor and shall be civilly liable for damages resulting from such misrepresentation.

#### **Service Animals in Schools**

The District recognizes that service animals may be used to provide assistance to qualified individuals with disabilities. This policy governs the presence of service animals in the District's buildings, on school property (including school buses), and at school activities. The Board of Education adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from District programs, activities and services, and to ensure that the District does not discriminate on the basis of disability.

Qualified students and/or adults with disabilities may be accompanied by a "service animal" on school property, in school buildings, and at school functions when required by law and subject to the conditions of this Policy.

The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Under Missouri law, the term "service dog" is defined as "any dog specifically trained to assist a person with a physical disability by performing necessary physical tasks which the person cannot perform. Such tasks shall include, but not be limited to, pulling a wheelchair, retrieving items, and carrying supplies.

The District will permit the use of a miniature horse as a service animal if: (1) the miniature horse has been individually trained to do work or perform tasks for the benefit of an individual with a disability.

#### **Gifted Education Program**

The Board of Education directs that curriculum be developed to meet the needs of students who have been identified as gifted by multi-criteria assessment developed by professional staff. This curriculum is to include strategies infused in all areas of regular education, K- 12, as well as specific curriculum designed to enrich the regular curriculum in order to meet the challenge of educating the gifted student.

The District's Gifted Education Program will allow for grade acceleration for students who demonstrate:

- Advanced performance or potential for advanced performance; and
- The social and emotional readiness for acceleration.

The acceleration opportunity will apply to subject acceleration and/or whole grade acceleration.

#### **Review of Application Denial**

Parents/guardians may request a review of the District's determination that their student did not qualify to receive services through the District's Gifted Education Program. The review process is as follows:

- Review of the decision by their building principal;
- Review by the central office administrator who is responsible for supervision of the Gifted Program;
- A written submission to the Board of Education stating the parents'/guardians' basis for an appeal.
- The Board may deny the written submission or may meet with the parents/guardians at a Board meeting to consider the appeal. The Board's decision is final.

While appeal is permitted for denial of entry into the Gifted Program, no such appeal is available for acceleration decisions.

The District and District employees are immune from liability from any and all acts or omissions relating to the decision that a child did not qualify to receive services through the District's Gifted Education Program.

#### Early Childhood Education

The critical importance of the early years in determining the educational development of children is recognized by the Board. When financial and physical resources permit, programs designed to help meet the physical, emotional, social and intellectual needs of pre-school age children are authorized. The Board of Education may establish pre-school and post-school programs in accordance with law. #### **English Language Learner (ELL)**

The Board of Education is committed to identifying and assessing the educational needs of students whose native or home language is other than English. Once identified, the District will provide appropriate programs to address the needs of these students. Students entitled to considerations under this policy include:

1. Language Minority (LM) - students who come from a background where English is not the student's first language, or where the primary language of the home is not English or both.
2. Limited English Proficient (LEP) - Students whose English language skills are insufficient to lead to success in an English-only classroom.

The District will also take steps to ensure to the maximum extent practicable that the interests of ELL students are included in the development and implementation of District programs and services that are offered by the District to and for its student body.

School personnel enrolling ELL students are trained in the process of identifying, assessing and providing services to these students.

To ensure that parents/guardians are properly notified of the ELL program, all new and enrolling students are to be given the Student Home Language Survey (Form 6180). The form shall be completed and returned to the school by the parents/guardians if they feel their child may be in need of such services.

Where the District has or may have in the future a low number of ELL students, the District may contract with a neighboring district for services until a qualified ELL teacher is employed. However, if the District serves twenty (20) or more ELL students, the District will employ a full-time certified ESOL teacher.

The Board designates the [District Position] to serve as the District's ELL Implementor.

### **Curriculum Services**

#### **Virtual Education**

The District will annually permit any eligible student, under the age of twenty-one (21) who resides in the District, to enroll in Missouri Course Access and Virtual School Program ("Program") courses as part of the student's annual course load. Course costs will be paid by the District provided that the student:

1. Is enrolled full-time and has attended a public school, including a charter school, for at least one (1) semester immediately prior to enrolling in the Program. However, if the reason for a student's non-attendance in the prior semester is a documented medical or psychological diagnosis or condition which prevented attendance, such non-attendance will be excused; and
2. Prior to enrolling in the Program course has received District approval through the procedure set out in this Regulation 6190(A).

Each Program course successfully completed will count as one class and will receive that portion of a full-time equivalent that a comparable course offered by the District generates.

#### **A. Enrollment**

The enrollment process for participation in the Program will be substantially similar to the enrollment process for participation in District courses. The enrollment period will be ten (10) school days prior to each semester. Students who fail to timely enroll will be permitted to apply the next semester. New students enrolling during the school year will have five (5) school days from school enrollment to apply for a Program Course under this Regulation. The process may include consultation with a school counselor. However, consultation does not include the counselor's approval or disapproval of enrollment in the Program. However, the District has ten (10) business days from the date the application was submitted to the District to approve or deny the application.

When a District school denies a student's enrollment in a Program course or enrollment as a full-time Program student, the District will provide in writing a "good cause" reason for the denial. Such good cause determination will be based upon a reasonable determination that the enrollment is not in the student's best educational interest. Where enrollment is denied, the following process will be utilized:

1. The District will notify the student and the student's family in writing of the right to appeal denial of Program enrollment to the Board of Education; and

**ADOPTED**  
11-24-20

Independently, the District will monitor student progress and success in Program courses. The District will annually provide DESE with feedback regarding Program course quality.

The District is not obligated to provide computers, equipment or internet access except for eligible students with a disability in compliance with federal and state law.

The District will include students' enrollment in the Program in determining the District's average daily attendance (ADA). For students enrolled in the Program on a part-time basis, ADA will be calculated as a percentage of the total number of Program courses in which the student is enrolled by the number of courses required for full-time students.

**D. Notice**

The District will inform District parents of their child's right to participate in the Program. Opportunity to participate in the Program will be provided in parent handbooks, registration documents and on the homepage of the District's website.

The process may include consultation with a school counselor. However, consultation does not include the counselor's approval or disapproval of enrollment in the Program.

**The deadline for adding a MOCAP course(s) to a student's schedule is the sixth day after the start of the semester. All corresponding enrollment information for the time line for enrolling in a MOCAP course can be found on the district's website at [www.novinger.k12.mo.us](http://www.novinger.k12.mo.us)**

When a District school denies a student's enrollment in a Program course or enrollment as a full-time Program student, the District will provide in writing a "good cause" reason for the denial. Such good faith determination will be based upon a reasonable determination that the enrollment is not in the student's best educational interest. Where enrollment is denied, the following process will be utilized:

1. The District will notify the student and the student's family in writing of the right to appeal denial of Program enrollment to the Board of Education; and
2. The family will be given an opportunity to present the reasons for their appeal to the Board at an official Board meeting; and
3. The District, at such Board meeting, will provide the basis for its determination that Program enrollment was not in the student's best educational interest; and

6. The family may appeal the Board's determination to the Department of Elementary and Secondary Education. The Department shall provide their decision within seven (7) calendar days.

Program credits previously earned by a student transferring into the District will be accepted by the District. Students who are participating in a Program course at the time of transfer shall continue in the course with the District assessing future monthly payments.

Home school and private students wishing to take additional courses beyond their school's regular course load will be permitted to enroll in Program courses under an agreement, including the student's payment of tuition or course fees.

#### **B. Payment for Program Courses**

Cost associated with Program courses shall be paid by the District for students satisfying subsection (1) of this Regulation 6190. Payments will be made on a monthly cost basis prorated over the semester enrolled. Payments will be made directly to the Program contract provider. Such payments per semester will not exceed the market cost, but in no case more than 7% of the state adequacy target per semester. In the event a Program participant discontinues their enrollment, the District will discontinue monthly payments made on the student's behalf.

In the case of a student who is a candidate for A+ tuition reimbursement and who is enrolled in a Program course, the District will attribute no less than ninety-five (95%) percent attendance to any such student who has successfully completed such Program course. K-8 Districts will be required to pay the District for Program attendees residing in the K-8 District.

#### **C. Program Course Evaluation**

The District will consider recommendations made by DESE relative to a student's continued Program enrollment. Based in part on DESE's recommendations, the District may terminate or alter a course offering if the District, in its reasonable discretion, determines that the Program course(s) is not meeting the student's educational needs.

Independently, the District will monitor student progress and success in Program courses. The District will annually provide DESE with feedback regarding Program course quality.

The District is not obligated to provide computers, equipment or internet access except for eligible students with a disability in compliance with federal and state law.

The District will include students' enrollment in the Program in determining the District's average daily attendance (ADA). For students enrolled in the Program on a part-time basis, ADA will be calculated as a percentage of the total number of Program courses in which the student is enrolled by the number of courses required for full-time students.

#### **D. Notice**

The District will inform District parents of their child's right to participate in the Program. Opportunity to participate in the Program will be provided in parent handbooks, registration documents and on the homepage of the District's website.

#### Instructional Time

The primary focus of the District's staff and programs is maximization of student learning. While learning occurs as a result of extracurricular activities and as a result of non-structured interaction between students and between students and staff, most learning occurs as a result of planned learning activities during class time. Therefore, every effort will be made to minimize disruptions in instructional time. Public address announcements and pull out programs will be planned to avoid loss of critical instruction time.

Textbooks on which assignments are based are to be available to each student. Under the guidance of the teacher and the rules for a particular class, a textbook should be available for the student to take home overnight or over a weekend so that the student may prepare homework assignments and so that the parents/guardians may see the textbook.

Textbooks and library books are to be treated with respect by the students, used wisely, cared for, and returned in good condition when the assignment or course is concluded. The student to whom a textbook or library book is issued will be held responsible for its return in good condition. A reasonable system of fines, penalties, or methods of repayment for a fair value of the book is to be developed. #### Instruction

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accord with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political, or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and non-print materials. Despite the care taken to select those materials deemed to be educationally useful, occasional objections to the selection of instructional materials may be made by the public. However, the principles of academic freedom and the freedom to read must be defended, rather than the materials.

If a challenge is made, it should be properly channeled through guidelines and procedures established by the Board.

It is the intent of the Board to delineate, enforce, and abide by the provisions of current copyright laws and regulations as they affect the School District and its employees. The District will not purchase any videos, computer software, audio tapes, publications or other materials that have been illegally copied or reproduced.

Copyrighted materials, whether they are print or non-print, will not be duplicated unless such reproduction meets "fair use" standards, or unless written permission from the copyright holder has been received.

Details about "fair use" will be made available to all teachers. A summary of these standards will be posted or otherwise made easily available at each machine used for making copies.

The Board does not sanction illegal duplication in any form. Employees who willfully disregard the District's copyright position are in violation of Board policy; they do so at their own risk and assume all liability responsibility.

Any materials produced by an employee (or employees) during the time he/she is paid for production of said materials shall be owned by the School District, and any civil rights of authorship are forfeited with payment by the District for production of materials.

## PRF 6250 Instruction for Students with Disabilities

### Instructional Services Instruction

It is the policy of the District to provide a free appropriate public education to all public school students with disabilities. Students with disabilities are defined as those students who have one of the categorical disabilities as enumerated in the Missouri State Plan for Part B of the Individuals with Disabilities Education Act (IDEA) and who are in need of special education services or who have a mental or physical impairment that substantially limits one or more major life activities as defined by Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act.

The District will provide special education and/or other services to students with disabilities in accordance with applicable law, including the IDEA, and its amendments, Section 504 of Rehabilitation Act of 1973, 162.670-.995, RSMo., and Missouri's State Plan for Part B of the IDEA. For appeal procedures and information as to where to obtain a copy of the District's 504 Procedural Safeguards regarding identification, evaluation or educational placement of a student under Section 504, refer to Regulation 2110 - Equal Education Opportunity.

To obtain a copy of the District's IDEA procedural safeguards, including appeal procedures, please contact IDEA Contact at IDEA email.

When providing print materials to students with visual impairments, the District will adhere to the National Instructional Materials Accessibility Standards (NIMAS) or will provide such print materials in timely fashion via high quality accessible materials.

## PR 6255 Independent Educational Evaluation Policy for Disabled Students under the IDEA

### Instructional Services Instruction

The parent or legal guardian of a student with a disability pursuant to the Individuals with Disabilities Education Act ("IDEA") or of a student suspected of having an IDEA disability has the right to obtain an independent evaluation subject to the provisions of this policy. The parent or legal guardian has the right to an independent educational evaluation at public expense if they disagree with an evaluation or any component of an evaluation obtained or conducted by the District. The parent or legal guardian may request one independent educational evaluation in response to each evaluation completed by the District. If the parent request for an independent evaluation comes one year or more from the date of the completion of the District's evaluation, the District may seek to complete a reevaluation prior to paying for an independent educational evaluation.

#### *Definitions:*

1. *An independent educational evaluation (IEE)* means an evaluation conducted by a qualified examiner who is not employed by the District. An independent educational evaluation must meet the educational evaluation criteria used by the District when it initiates an evaluation to the extent those criteria are consistent with the parent's right to an IEE.
2. *Public expense* means that the District either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent. The District may, therefore, use whatever State, local, Federal or private sources of financial support are available to pay for the costs of an independent educational evaluation.

A parent is not required to notify the District prior to obtaining an IEE. However, if the parent or legal guardian requests an independent educational at public expense, the District will request that the parent provide a reason why he or she objects to the District's evaluation. In making that request, the District may not unreasonably delay either providing the requested independent educational evaluation at public expense or initiating a due process hearing to defend the District's evaluation.

If a parent requests an independent educational evaluation at public expense, the District will, without unnecessary delay:

1. Provide the parent or legal guardian with a copy of this policy and the District's IEE procedures; and
2. Provide the parent with information about where an IEE may be obtained within the parameters of this policy and the District's procedures; and
3. (a) ensure that an independent educational evaluation is provided at public expense; or (b) initiate a due process hearing to show that the District's evaluation is appropriate or that the IEE obtained by the parent did not meet District criteria.

If the District initiates a hearing and the final decision supports the appropriateness of the District's evaluation, the parent still has the right to an independent educational evaluation, but not at public expense.

If a parent or legal guardian obtains an IEE at private expense and presents that IEE to the District, the results of that evaluation must be considered by the District in any decision regarding the provision of a free appropriate public education to the student. In addition, any IEE obtained by the parents at private expense may be presented as evidence at a due process hearing regarding that student.

#### **Screening for Dyslexia**

Dyslexia is a disorder that is neurological in origin, characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit on the phonological component of language, often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, and of which secondary consequences may include problems in reading, comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

In order to close the gap between struggling readers and their “normally” developing peers, the District will:

1. Identify students at risk for dyslexia or reading failure.
2. Form small groups for instruction and intervention.
3. Plan instruction and intervention.
4. Goal setting for individual student achievement.
5. Set criteria for intervention exit.

#### **Screening**

Each student, kindergarten through third grade, will annually be screened for dyslexia within the first thirty (30) days of the school year. In order to monitor progress or lack of progress, benchmark assessments will also be completed for K-3 students in the middle and at the end of each school year.

The dyslexia screening protocol set forth in this policy will also be administered to the following students:

1. K-3 Missouri transfer students who have not been previously screened.
2. K-3 out-of-state transfer students who do not have documentation of previous screening.
3. Students in grades 4 and above with a record of potential dyslexia related issues as determined by the classroom teacher or as requested by the student’s parent/guardian.

Teachers employed by the District in subsequent years, who have not received this training in another district will be provided the same training by video or by in-person training.

Such in-service training should include:

1. Introduction to dyslexia and dyslexia simulation;
2. Key areas of literacy and reading intervention;
3. Screening/progress monitoring, data-based decision-making, fidelity and classroom supports.
4. Training for secondary-level staff will be tailored to the unique needs of secondary students.

Student performance is assessed on a continual basis throughout the school year. This evaluation assesses student growth in expression of ideas, communication, achievement of educational goals, and personal growth, and development. Grades will be assigned based upon student ability, achievement, effort, and cooperation.

A disabled student's IEP team or Section 504 team may determine that his/her academic requirements, including but not limited to the requirements for achieving a specific letter or numerical grade, may be modified or altered. Under these circumstances, the IEP team or Section 504 team shall determine whether the student shall be included in the computation of class rank. Students who are not included in the class rank shall still receive a cumulative grade point average (G.P.A.) and shall be eligible for the honor roll.

If a non-disabled student is receiving homebound instruction, the principal, counselor and/or classroom teacher(s) for such course(s), in conjunction with the homebound teacher, shall determine whether the student shall be included in the computation of class rank, depending on the degree of modification or alteration to the curriculum the homebound student requires.
